

YOU ARE HERE

Is your school on our map? Join the National Center for Engineering Pathways to Innovation (Epicenter) community and help empower engineering students to bring their ideas to life for the benefit of our economy and society.

UNIVERSITY INNOVATION FELLOWS

This program offers undergraduate students in engineering and other fields the training and support to lead innovation and entrepreneurship movements on campus.

118 Fellows and Candidate Fellows at **92** institutions

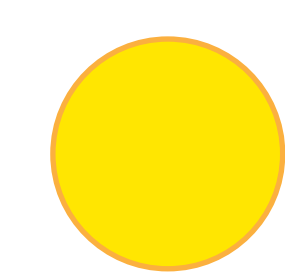

11 teams of Fellows participating in Leadership Circles

In 2012-13 academic year, Fellows held 124 activities, reaching **9,000** faculty and students:

- established new clubs and organizations
- led single- and multi-day events and challenges
- held workshops and bootcamps
- hosted networking and awareness raising events

58% of Fellows reported that they implemented practices they learned about from other Fellows*

RESEARCH

The Epicenter research community engages **23** scholars and experts from **8** schools and organizations.

Research Question 1: What are current models of educating engineers for entrepreneurship/entrepreneurial thinking?

Study of 18 U.S. entrepreneurship programs available to undergraduate engineers. Results will be presented at Open 2014 and ASEE 2014.

PATHWAYS TO INNOVATION PROGRAM

This program helps teams of faculty integrate entrepreneurship and innovation into the undergraduate engineering curriculum.

Teams of faculty and administrators engage in a two-year strategic process to design and implement unique plans for each institution.

12 institutions in Year 1 serve more than **24,000** undergraduate engineering students.

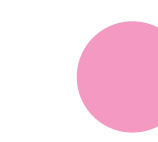

Schools gain access to:

- models for integrating entrepreneurship into their curriculum
- custom online resources
- guidance from a national community of engineering and entrepreneurship faculty
- membership in a peer network of schools with similar goals

PARTNER AND COMMUNITY ACTIVITIES

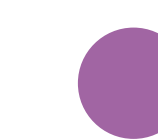

EPICENTER NATIONAL ADVISORY BOARD
13 members in academia and industry

EPICENTER FACULTY GRANTEES
5 faculty leading cross-institutional projects

EPICENTER RETREAT
73 participants from **42** schools and organizations attended, Sept. 30 - Oct. 3, 2012

LEAN LAUNCHPAD PROGRAMS
53 participants in January 2014 Educators Program and more than **300** participants to date

Next Educators Program: April 21 - 23, 2014, in Stanford, CA

NCIIA ANNUAL OPEN CONFERENCE
More than **300** faculty and students from **100** schools attended in 2013

Next conference: March 21 - 22, 2014, in San Jose, CA

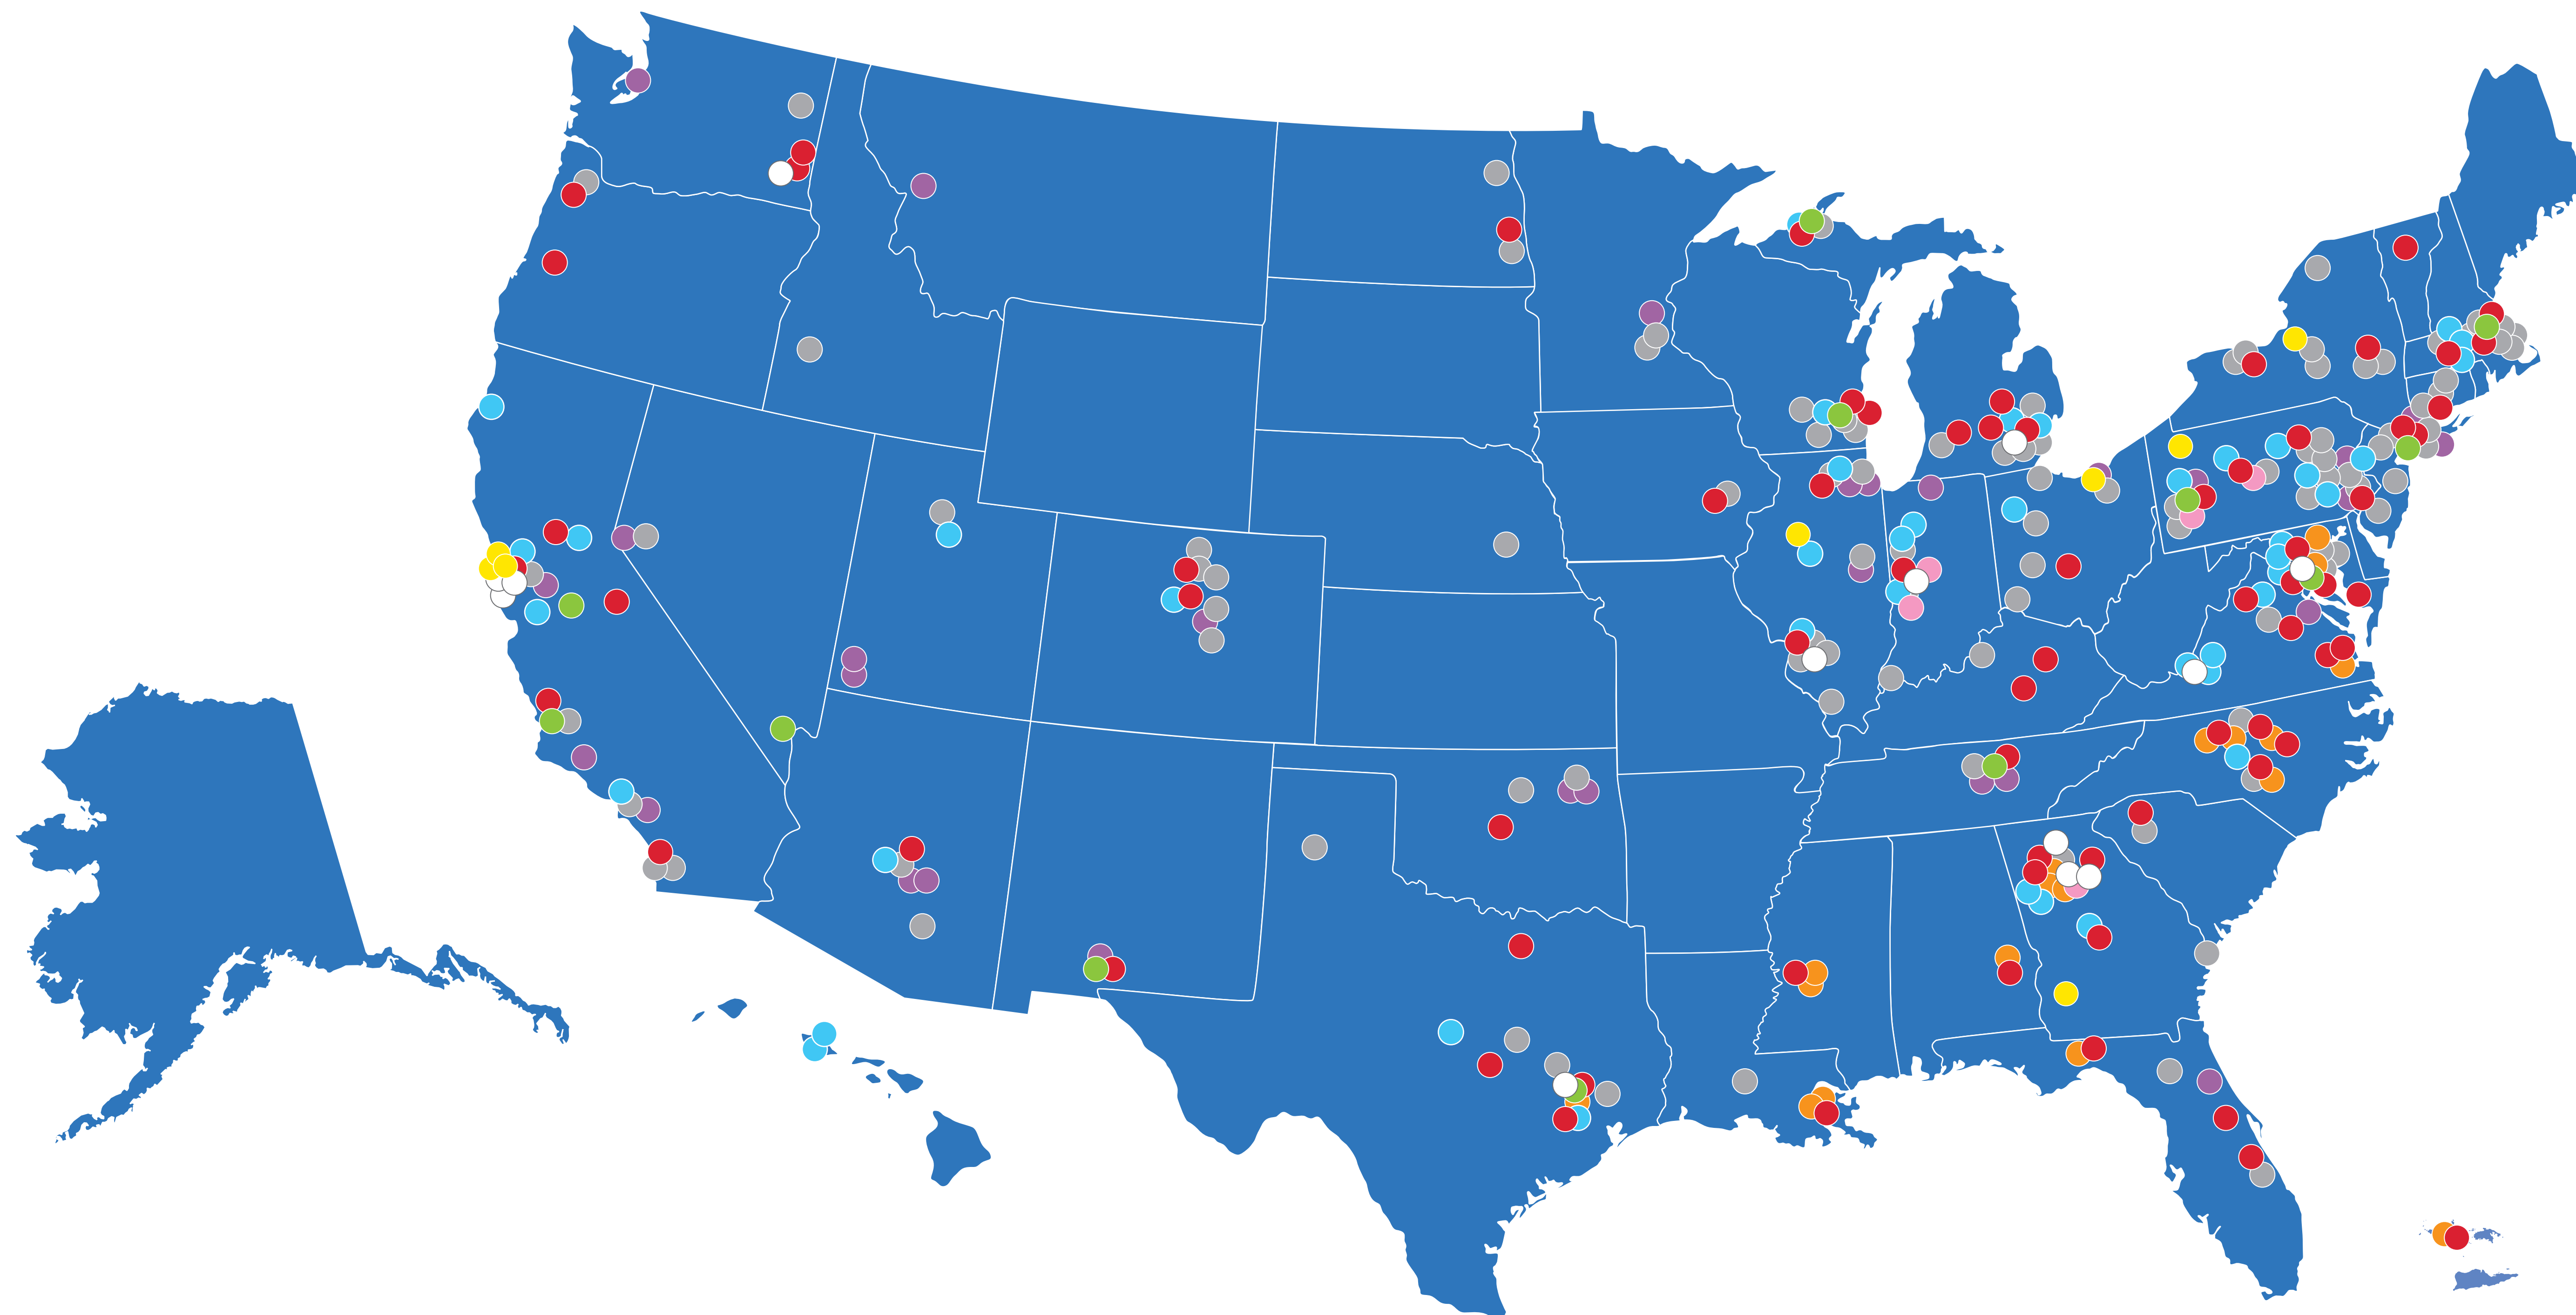

HBCU INNOVATION SUMMIT
52 presidents, deans, provosts, directors and faculty from **18** schools attended, Oct. 29 - Nov. 1, 2013

INNOVATION & ENTREPRENEURSHIP ONLINE RESOURCES
110,000 participants in three MOOCs on creativity and design thinking

3,000 videos and podcasts on entrepreneurship and innovation available at ecorner.stanford.edu

Just in time Online Learning Tools now available at jolts.stanford.edu
